Osborn Maja

Software engineer | Android & iOS developer | Backend engineer |
UX designer

Mombasa County, Kenya

Summary

Hello, I'm Osborn Maja, a passionate software engineer, web
developer, mobile developer, and UX designer. With a deep-rooted
commitment to technology and user-centric design, I've dedicated
my career to crafting applications that not only meet the needs of
users but also add value to stakeholders.My journey in the world of
software development has been an exciting exploration of diverse
technologies and platforms.

As a software engineer, I thrive on the intricacies of code and the
challenges of problem-solving. Whether it's building responsive web
applications, creating intuitive mobile experiences, or designing
interfaces with an emphasis on user experience, I find joy in turning
ideas into functional and elegant software solutions.One of my core
principles is to develop applications that bring tangible benefits
to users while aligning with the goals of stakeholders. I believe
that technology should enhance lives, simplify tasks, and foster
seamless interactions. Additionally, I am committed to the concept of
universal usability, which means ensuring that the software I create
is accessible and usable by everyone, regardless of their abilities or
limitations
